Like fall leaves turning red and yellow, there are signs of a change in our collective consciousness. When Oprah Winfrey joins Eckhart Tolle to discuss spirituality and thousands of individuals tune in, something is going on. Tolle's recent book *A New Earth: Awakening Your Life's Purpose*, draws on traditional wisdom and mystic writings. In 1975 *The Course in Miracles* was first published and it also had a widespread international following. Both books are a part of a greater awakening happening today in our culture.

Barbara Findeisen, founder of the Pocket Sanctuary and clinical director of STAR, teaches workshop participants practical applications of these inspirational teachings. Each book highlights finding freedom from the past and living in the present moment. It's our personal challenge to reach spiritual wholeness while functioning in a stressful world of schedules, deadlines, cell phones and traffic.

*A limited number of private sessions are available with Barbara on October 1, 2 & 3 @ \$150/hour.
